“GETTING TO ZERO” THROUGH CULTURE AND TRADITION

December 1st is World AIDS Day and the theme is “*Getting to Zero*” until 2015.
This means:

-  Zero new HIV infections
-  Zero Discrimination
-  Zero AIDS related deaths

This is an opportunity for Indigenous people to unite in the fight against HIV, to show their support for people living with HIV and to commemorate those that have taken their journeys home. This day is about increasing awareness, fighting stigma and sharing the knowledge so that we can work together towards Getting to Zero!
