

# PEOPLE LIVING WITH HIV IN CANADA

Canada's source for HIV and hepatitis C information

CATIE.CA

Canada doesn't have a single HIV epidemic. There are differences in modes of transmission across the country.

## EXPOSURE CATEGORY

- Sex between men
- Sex between men or injection drug use
- Injection drug use
- Heterosexual sex

**Source:** Based on 2020 estimates, the most recently available regional estimates from the Public Health Agency of Canada. Exposure categories are based on a hierarchical classification at the time of diagnosis. Figures do not add up to 100% as they do not include the negligible percentage from the exposure category of 'Other'.

Production of this document has been made possible through a financial contribution from the Public Health Agency of Canada. The views expressed herein do not necessarily represent the views of the Public Health Agency of Canada.
