

# Drug strength and contents are **unknown** and **unpredictable**

How **strong** is this?

Are there **benzos** in this?

Is this **what I think** it is?

Could these pills be **fake**?

Has anything **dangerous** been added to this?

Will this cause me to **overdose**?

Is this **similar** to what I bought last week?

## It's impossible to know all the answers.

The unregulated drug supply is dangerous and unpredictable.

## Take care of each other.

Stay safe.  
Carry naloxone.  
Your life matters.

Scan here for information about safety planning and responding to an overdose. Or visit
