

## Our Compass

Created in 2009, *Our Compass* is a short documentary video that tells the previously unheard stories of a group of young, queer-identified Torontonians who are also labelled as having intellectual disabilities. This diverse group comes together at Compass—a social group created for lesbian, gay, bisexual, transgender and questioning youth at Griffin Centre—where they are offered a support group, a social network, and a safe place to explore their identities. In the documentary, the participants engage in discussion of topics such as dating, sex, battling stigma and coming out, while preparing for professional portraits that will showcase the feature of their identities that they are most proud of. Power, freedom, hope and love are a few of the words of inspiration that the youth of *Our Compass* impart to the audience.

*Our Compass* has utilized a collaborative, participatory media making approach, which honours the creativity and lived experiences of youth, to create an educational tool that transforms how media is used to tell stories.

The photographs presented here are a selection of images used in the video. As described by Tyson:

We each had a portrait taken and each of us chose our own theme for the portrait and everybody chose something that's important to them and expressed something about them.

Griffin Centre promotes positive change for vulnerable youth and adults with mental health challenges and/or developmental disabilities and their families. We are dedicated to delivering innovative services and developing creative partnerships that enhance lives and communities.

Within Griffin Centre, ReachOUT is a creative, inclusive & accessible program for lesbian, gay, bisexual, trans, and queer youth and adults in the Greater Toronto Area. Activities include drop-in groups, community outreach, art & skills exchange, counselling, training and consultation. We offer safe spaces that reflect the diversity of our queer and trans communities.
